So we started with Maps ,Microsoft Streets & Trips, Looking at the additi o n of color, size,spelling and Headline, rather eventful and positive. .2 The Days of the Week being shown by Tab of the side of each manual there will be a tab by the Day of the week which will make it easier for fellow carriers to find meetings faster and efficient. .3 Every month a full update to all carriers, either by email or phone calls or in person, also the type of meetings stopped or shut down proper notification. .4 A thought to check 211 for approval of using there number on our contact list, no need all is well.
