General Report

Discussed the formatting for the survey questions. How many were going to be printed. How the survey questions were going to be advertised. The group decided on a flyer to distribute at area. and to make the survey two pages, front and back to leave room for 'write in' answers.

We would like for the completed surveys to be brought back to Area.

Discussed the amount of time we will allow for addicts to answer the questions. The current timeline for answering questions is January ASC.

Also working on a possible online questionnaire to make the survey more accesible. Working on setting it up to see if it will work. More will be revealed.
