## **General Report**

While I was the only person in attendance, the previous month I failed to submit a report. A fellow recovering addict came up with a great solution to condense the meeting list. By shifting information from one column to the next and reducing the space reserved for phone numbers by half, we can go back to the original double sided 10 by 12 print. Also I only printed 750 copies this month to cut costs and noticed that we had an abundance of meeting list left over. As for the second part of the workshop Literature ordering guidelines, here's a brief summary of what we are looking at nothing is set in stone.

- 1.All literature orders are to be processed at area.
- 2.Group report and current literature order form must be filled out and submitted to the treasurer.
